TRANSFORM YOUR ORGANIZATION WITH

INTUITIVE LEADERSHIP

WWW.LSMCONSULTING.NET

LEADERSHIP BASED ON *INTUITION*

What if there is a better way to connect with your team? To leave them feeling valued, supported, challenged and respected? In this kind of environment, you will nurture employee engagement and boost morale. Not only will they be happier, more creative and ultimately more productive... your organization will thrive. This is what happens when you introduce the principles of intuitive leadership into your business.

This training includes strategies and tools to ensure participants immediately benefit from the concepts presented.

OVERVIEW

PRINCIPLE 1 | **CLARITY**
PRINCIPLE 2 | **BUILDING THE FOUNDATION**
PRINCIPLE 3 | **CULTIVATING CULTURE**
PRINCIPLE 4 | **SYNERGY**
PRINCIPLE 5 | **REFLECTION**

OUTCOMES

- Develop a practical and effective intuitive practice
- Establish a motivated and thriving corporate culture
- Learn how to make sound decisions in challenging (even crisis) situations
- Embody leadership at its deepest level
- Inspire confidence and pinnacle performance in your team

ABOUT LIIMU McGILL

CREATOR OF THE INTUITIVE LEADERSHIP METHODOLOGY

After ten years servicing the pharmaceutical industry as a consultant and an employee, Liimu established LSM Consulting in 2008 to deliver her expertise and knowledge in the areas of documentation and training directly to the client, helping them avoid the costly overhead of agency support.

Liimu built LSM on the principles of intuitive leadership, allowing herself to be guided by a deep inner wisdom. The results have been phenomenal, and now she offers her wisdom in this area to others who could benefit from a new model of leadership; one that is inclusive, humane, heart-centered, and profoundly effective.

PRINCIPLE 1 | CLARITY

Establishing and developing your intuitive practice, and then utilizing it to gain clarity towards your vision of the future is the first step in this process. Just as each individual is unique, so too will our way of accessing intuition vary from person to person. We shall come to understand the practical, core principles behind intuition and learn a few specifically powerful practices. Then, using those principles and practices, we will outline a solid vision to guide us toward success.

Key Concepts

1) Clarifying Your Vision
2) Deepening Intuition
3) Divine Guidance
4) Finding Your Source of Power

PRINCIPLE 2 | BUILDING THE FOUNDATION

This session is all about cultivating a fertile environment within which your vision (established in Session 1) will naturally and expeditiously grow. Taking the time and conscious effort to authentically establish this new paradigm on all levels of your organization ensures lasting change and profound transformation. Getting this step right is fundamental to actually making sure that you achieve your goals, and don't lose momentum or experience exhausting resistance.

Key Concepts

1) Anchoring Your Vision
2) Defining Values
3) Fluid Foundations

PRINCIPLE 3 | CULTIVATING CULTURE

Once you have authentically identified the values that inspire your organization's trajectory and workflow, the next step is to infuse that into your corporate culture. Enrolling team members towards the common vision, while honoring and encouraging their unique perspectives and contributions creates a sustainable environment for consistent growth and overall success.

Key Concepts

1) Building Your Team
2) Growing Authentic Culture
3) Naturally Inspiring Values

PRINCIPLE 4 | SYNERGY

Once the groundwork has been organically and authentically established, circumstances are ripe to developing relationships that augment and empower your organization. Having flexible yet reliable systems founded on the principles and cultures established in the first two sessions, gives leadership personnel the confidence to effectively engage in outreach, sales prospecting, internal reviews, lead efficient meetings, and inspire aligned action. These powerful relationships and interactions lead the way forward and guide the organization through unforeseen obstacles and opportunities, creating stronger alliances and refining systems in the process.

Key Concepts

1) Creating Powerful Partnerships
2) Fostering Aligned Relationships
3) Collective Co-Creation

PRINCIPLE 5 | REFLECTION

The ongoing practice of an intuitive leader is oriented towards decisions and actions that are inspired from a place of integrity and intuition. This requires re-evaluation and course adjustment as necessary based on fresh insights received. Setting this up as an intentional practice ensures that goals remain aligned and energy rich. In this session, participants will also use LSM Intuitive Leadership Action Cards (LILACs) to develop an individualized plan of action that ensures they will be able to quickly integrate key learning and positively impact their organization with the principles they have learned.

Key Concepts

1) Intentional & Active Reflection
2) Organizational Listening
3) Alignment vs. Outcome Orientation
